

360° Property Intelligence Report

Greater Bengaluru · generated 11 August 2026, 14:57 UTC

1. Executive summary

This report covers a 1,200 sq.ft, 2-bedroom property in Greater Bengaluru. It falls in 4 - Sampangirama Nagar. The model estimates Rs 4,974 per sq.ft (asking price per sq.ft (INR)). The buyer assessment is **VERIFY BEFORE PURCHASE**. No government property record could be retrieved, so all record-dependent conclusions require manual verification.

2. Administrative jurisdiction

Item	Value	Method
Corporation	Central	VERIFIED
Ward No	4	VERIFIED
Ward Name	4 - Sampangirama Nagar	VERIFIED
Zone	Gandhinagara	VERIFIED
Division	RO- Shivajinagar	VERIFIED
Sub Division	ARO- Vasanthanagar	VERIFIED
Assembly	162 - Shivajinagar	VERIFIED
Planning Authority	No public GIS layer confirmed for GBA/BDA/BMRDA jurisdiction (audit task R5). Determining this by locality name would be a guess.	UNAVAILABLE
District	Revenue district layer not ingested (audit: KRSAC, UNKNOWN)	UNAVAILABLE
Taluk	Revenue taluk layer not ingested (audit: KRSAC, UNKNOWN)	UNAVAILABLE

3. Property records and approvals

Item	Value	Method
Khata / e-Khata	No public API; owner-consent portal only	UNAVAILABLE
Property tax status	Per-property portal, OTP gated	UNAVAILABLE
Building approval	No public searchable register	UNAVAILABLE
Occupancy certificate	No public searchable register	UNAVAILABLE
Encumbrance certificate	Per-property, consent required	UNAVAILABLE

4. Transport, government offices and nearby services

Item	Value	Method
Nearest metro	Dr. B. R. Ambedkar Station, Vidhana Soudha — 87 m	GIS
Nearest railway station	Bangalore Cantonment — 1,751 m	GIS
Nearest bus stop	Vidhana Soudha — 216 m	GIS
Nearest hospital	Sparsh Hospital For Advanced Surgeries, Bengaluru Urban — 567 m	GIS
Nearest school	Sophia High School — 925 m	GIS
Nearest government office	Karnataka Raj Bhavan — 321 m	GIS
Connectivity Score	86/100	DATA-DRIVEN SCORE
Healthcare Score	51/100	DATA-DRIVEN SCORE
Education Score	82/100	DATA-DRIVEN SCORE
Daily Life Score	78/100	DATA-DRIVEN SCORE

5. Market value

Item	Value	Method
Asking price	Rs 6,500 per sq.ft	RULE
Estimated rate	Rs 4,974 per sq.ft	ML PREDICTION
90% prediction interval	Rs 2,331 – Rs 7,617	ML PREDICTION
Estimated value	Rs 5,968,800	ML PREDICTION
Target measured	asking price per sq.ft (INR)	ML PREDICTION
Government guidance value	Government guidance value is portal-only on Kaveri with no public API (audit 2.2). It is the official price floor and must be checked manually before relying on any estimate here.	UNAVAILABLE
Registered transaction price	Registered transaction prices are not published in Karnataka.	UNAVAILABLE

6. Demand and risk

Item	Value	Method
Demand	MEDIUM (54.7/100)	DATA-DRIVEN SCORE
Risk	LOW (0.0/100)	DATA-DRIVEN SCORE
Flood risk	No authoritative flood or drain geometry is public	UNAVAILABLE

7. Buyer assessment

Item	Value	Method
Verdict	VERIFY BEFORE PURCHASE	COMPOSITE
Price vs model	+30.7%	ML PREDICTION
In its favour	Asking price is within the model's 90% prediction interval (+31% against the estimate).	COMPOSITE
In its favour	Risk index is LOW (0.0/100).	COMPOSITE
In its favour	Strong public-transport access (86/100).	COMPOSITE

8. Development feasibility

Item	Value	Method
Far	Applicable FAR is not established. The FAR table has not been transcribed and cited from the RMP-2015 Zoning Regulations, and the reported 2025/2026 amendments are unverified (audit R2). Publishing a FAR figure here would be a guess with financial consequences.	UNAVAILABLE
Max Height	Maximum permissible height is not established. The applicable height rules are unverified against the source document (audit R2).	UNAVAILABLE
Max Built Up	Depends on FAR and plot area; at least one is unavailable	UNAVAILABLE
Potential Floors	Depends on maximum permissible height, which is unavailable	UNAVAILABLE
Setbacks	Not computed: the governing rule is unverified against the source document (audit R2)	UNAVAILABLE

Limitations of this report

- No government property record was retrieved. None of Khata, property tax, building approval, occupancy or encumbrance status is available through a public API, and none has been checked.
- ASKING price from listings. Karnataka does not publish transaction prices, so this carries a systematic upward bias of unknown size.
- Development-control rules are not yet verified against the Karnataka Gazette, so the feasibility engine returns no FAR or height figure. This is deliberate: publishing an unverified FAR would be a guess with financial consequences.

Zoning Regulations, RMP-2015 (India Code)	T1	Government publication

Disclaimer

This platform is a decision-support and research prototype. It is not an official government system and its output has no legal standing.

Official property records (e-Khata/e-Aasthi, property tax, building permission, occupancy and encumbrance certificates) are not available through any public API. This platform links to the official portals and checks documents you supply; it does not hold or retrieve government records on your behalf.

A Khata or e-Khata is a municipal record for property tax purposes. It is not proof of legal title or ownership. Title must be verified separately through registered documents and legal due diligence.

This report does not replace: Government approval; Legal title verification; Advocate or legal due diligence; Official building-plan sanction; Licensed surveyor verification; Planning authority confirmation; Property registration verification; Professional valuation.
